Emne: Action: Arctic SDI Board- Copenhagen Action: New Communication WG Lead

Dear Arctic SDI Board Members,

Please provide your feedback and recommendation via email.

At the Copenhagen Board Meeting there were the following decision and action. There was not enough time to address this topic at the NYC-UNGGIM Board Meeting, but it was also suggested that this item could be covered via email.

From the Copenhagen Board Minutes Section 7.3:

Decision: Norway will no longer be lead of Communication WG.

Action: The Board will discuss who will lead the Communication WG.

Kristian made the following suggestion in a June 18 email:

A consideration could be that the Lead of the Communication Working Group follows one of the countries being mandatory supporting countries to the Secretariat, i.e. a Board Executive country.

Kevin stated that he supports Kristian's suggestion.

*A decision prior to the Tromsø meetings
,
the week of September 14
,
would be very helpful to the Working Groups.*

Warm Regards. Lorna
